Success Story Winner:

More than 20 people shared their story about what inspires them to stay active and healthy. So many inspirational stories, it was hard to choose a winner. But our team chose **Stephanie Richardson**, a school nurse at Semple Elementary School in Jefferson County. Stephanie recommends using a fitness app and device, participating in challenges, using the tools of Go365, and having a good support system. "I can't say that I'm a huge success story yet, but I can say that I am working really hard and celebrating every little success along the way and one day in the near future I will reach all of my goals." We know she will! Read her entire story [here](#).

Congratulations to all our winners and keep moving!
